

Employee Resource Groups

Employee Resource Groups (ERGs) provide opportunities for groups of employees to enhance their professional experience, serve a business purpose, and support and model Fulton's commitment to diversity, equity, and inclusion within our workforce and communities. Each group has an established leadership team that executes and operates independently.

We will invest in Fulton's Future by enhancing visibility of early professions to foster innovation towards a modern workforce, develop and secure successful talent, and enrich the communities we serve. With interests in community service and professional development, we aim to meet the needs of all Fulton employees by providing events and opportunities that promote information sharing across our footprint.

We celebrate and connect the LGBTQ+ community and their allies at Fulton Bank and work to ensure a welcoming and inclusive workplace for lesbian, gay, bisexual, transgender, nonbinary, and queer employees. We aim to raise awareness of the LGBTQ+ community within Fulton's workforce and ensure Fulton Bank is engaging with and speaking to its LGBTQ+ customers and potential customers through marketing, advertising, and community involvement.

We are a forward-thinking group that speaks to the career and life advancements of employees of color. By sharing our experiences and leveraging our strengths, we aim to improve access to opportunities and promotions through achievement and exposure- while promoting diversity, equity, and inclusion in Fulton Bank's business strategy, recruitment efforts, and retention practices.

We recognize that service personnel come from a world where "me" is not used very often and "we" is always top of mind. This group was created with the "we" in mind- uniting veterans, military families and spouses, and civilians alike as they network, share experiences, ideas, and goals, and bridge relationships within Fulton Bank and communities we serve. We aim to assist in the transition to the workforce and also with talent acquisition, employee retention and engagement, and as we socialize the Fulton brand through various outreach opportunities.

As a group, we will empower Fulton Women in Technology by engaging a diverse network of professionals to inspire, educate and connect women working on both the technical and business sides of technology. We will promote collaboration within and among Fulton's Information Technology group and Fulton's lines of business to foster skills and ideas to meet our technology needs. We will use these insights to deliver value for our customers, assist in talent recruitment, and encourage and support women throughout the stages of their career.
