

Funding Methods: Adding a Card

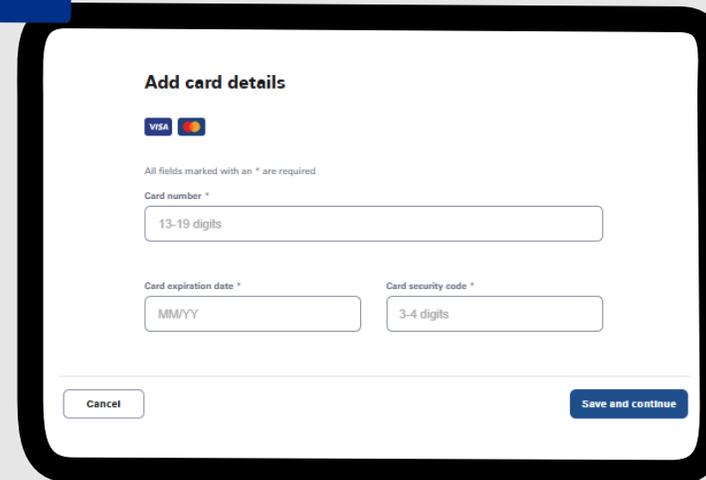

1

The screenshot shows the 'Settings' page with a sidebar on the left containing 'Company details', 'Plans and billing', 'Billing statements', 'Users and roles', 'Sync and Import', and 'Funding methods'. The 'Funding methods' section is highlighted. It contains a 'Bank account' section with a card icon, account number '***9924', and a note 'Only you can pay with this bank account.' Below it is a 'Credit card' section with a card icon and a note 'Add credit card details to pay by card. (2.8% fee)'. An 'Add card' button is located at the bottom right of the credit card section.

From "Settings," navigate to "Funding methods." Click "Add card."

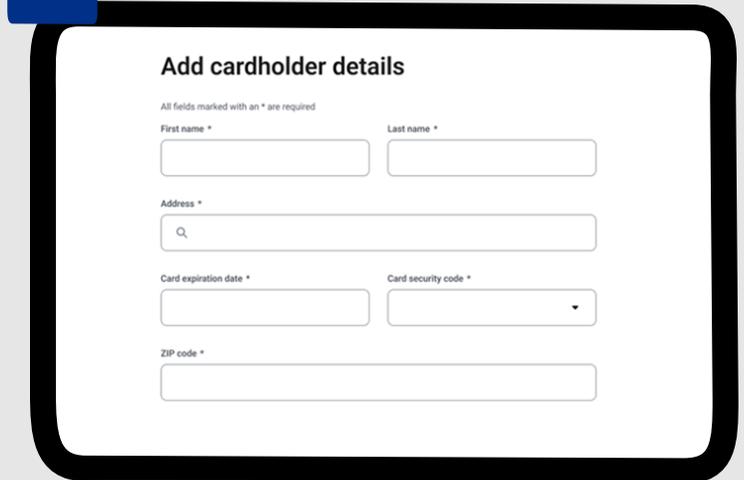

2

The screenshot shows the 'Add card details' form. It features the Visa and Mastercard logos at the top. Below them is a note: 'All fields marked with an * are required'. The form includes a 'Card number *' field with a placeholder '13-19 digits', a 'Card expiration date *' field with a placeholder 'MM/YY', and a 'Card security code *' field with a placeholder '3-4 digits'. At the bottom, there are 'Cancel' and 'Save and continue' buttons.

Add card details. Click "Save and continue."

3

The screenshot shows the 'Add cardholder details' form. It starts with a note: 'All fields marked with an * are required'. The form includes a 'First name *' field, a 'Last name *' field, an 'Address *' field with a search icon, a 'Card expiration date *' field, a 'Card security code *' field with a dropdown arrow, and a 'ZIP code *' field.

Add cardholder details. Click "Save and close." Card will appear under funding methods.
